READ—

Letter No. C. 1310, dated 19th October 1917, from the Revenue Commissioner in Mysore, recommending sanction to the Deputy Commissioner's proposal following the undermentioned resolutions passed at the first periodical meeting of the District Officers of the Mysore District, held on 19th May 1917, to make the three Special Deputy Amildars appointed in the Mysore District in connection with the acquisition of land and resettlement of the expropriated raiyats under the Krishnarajasagara independent of the Amildars of the taluks concerned and subordinate direct to the Special Land Acquisition Officer in certain matters.

(1) That Government be moved to modify the existing orders under which these special duty officers (Special Deputy Amildars) are supposed in theory to subordinate to the Amildars in the matter of the settlement work of the respective taluks, so as to conform to existing practice under which they are practically in independent charge, and directly subordinate to the Special Land Acquisition Officer.

(2) That the Special Duty Officers should concern themselves with only settlement and ordinary revenue work including collections, but that work relating to Village Improvement, Economic Conference, Union Administration, Muzrai, etc., should be left to the Amildars.

(3) That the Deputy Amildars should have powers of disciplinary control over the village officers concurrently with the Amildars and that appeals from their orders should lie to the Special Land Acquisition Officer who should exercise the powers of an Assistant Commissioner under the Village Offices Regulation for the purpose.

Order No. R. 5427-30—L. R. 25-17-19, dated 17th December 1917.

Resolutions (1) and (2) are approved.

Government, however, cannot agree to Resolution No. (3). The defaulting village officers should be reported by the Deputy Amildars to the Amildars of the respective taluks in the first instance.

Forest Settlement.

No. R. 5077-81—Ft. 78-17-4, dated 5th December 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Notification No. R. 638—Ft. 3-08-2, dated 29th July 1908, declaring, under Section 4 of the Forest Regulation, the proposal to constitute certain lands in the Nagar Taluk as a State Forest under the name of Manibyle Block.

2. Letter No. C. 898, dated 5th September 1917, from the Revenue Commissioner in Mysore, recommending that the *settlement of the forest as decided by the Forest Settlement Officer and modified by the Deputy Commissioner may be approved.

* Report with enclosures printed as accompaniments.

3. Letter No. 3141, dated 10th October 1917, from the Conservator of Forests in Mysore, stating that large areas proposed for the forest have been excluded by the Forest Settlement Officer, and in addition to the above, the Deputy Commissioner has permitted free grazing to the cattle of all affected villages and that the latter concession is quite unnecessary as ample area exists for grazing outside the forest.

Order No. R. 5077-81—Ft. 78-17-4, dated 5th December 1917.

The settlement effected by the Forest Settlement Officer as modified by the Deputy Commissioner is approved. The area will be declared a State Forest from the 1st February 1918.

2. The Deputy Commissioner, Shimoga District, is requested to promulgate the boundaries of the forest in the localities in which they are situated.

ACCOMPANIMENT.

Letter No. C. 898 of 1917—6, dated 5th September 1917, from K. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

I have the honor to forward herewith the marginally noted papers relating to the final settlement of the Manibyle Forest Block in the Nagar Taluk, received with the Shimoga Deputy Commissioner's letter dated the 23rd August 1917, and to recommend that the settlement may be approved and the final notification published in the Gazette.

1. Letter No. 534, dated 28th June 1917, from the Forest Settlement Officer.
2. 'B' Registrar.
3. 'C' Registrar.
4. Boundary Notification.
5. Sketch map.
6. Topo tracing.

Letter No. 534, dated 28th June 1917, from B. Basavaradhya, Esq., B. A., B. L., Forest Settlement Officer in Mysore, Bangalore, to K. S. Doraswami Iyer, Esq., Revenue Commissioner in Mysore, Bangalore, through the Deputy Commissioner, Shimoga District.

I have the honor to report on the conclusion of the settlement of the Manibyle Block in Nagar Taluk in Shimoga District.

2. The initial notification under Section 4 of the Mysore Forest Regulation proposing to constitute the area into a State Forest, appeared on pages 475-476, Part I of the English issue of the *Mysore Gazette*, dated 30th July 1908, and the proclamation under Section 5 of the Forest Regulation was issued by Mr. M. Shama Rao, the then Forest Settlement Officer, and the same appeared on pages 525, 526 and 527, Part II of the Kannada issue of the *Mysore Gazette*, dated 20th August 1908. The proclamatory notifications were got served on the villagers concerned through the Amildar, Nagar Taluk, during the time of Mr. Shama Rao only.

3. The settlement work was finished by my predecessor Mr. C. Venkata Rao, on the 17th January 1913; but the records were in appeal till the 8th February 1915. After the revival of this office in September 1916, as per Government Order No. R. 2541-51—Ft. 9-16-3, dated 2nd September 1916, a requisition was sent to all the Deputy Commissioners for sending up the pending settlement records. In response to the above, the Deputy Commissioner, Shimoga, sent this record among others and it was received in this office on the 2nd December 1916. As the resurvey maps have come into use subsequent to the settlement, the Amildar, Nagar Taluk, was asked to furnish the statistics of the villages concerned in the block as per resurvey accounts as they were required to compile the "C" statement. The same was received in this office on the 2nd May 1917, and the compilation of the required statistics took time and hence the slight delay.

4. The following 22 claims were preferred to Mr. C. Venkata Rao, during the enquiry as is seen from the records.

(i) 4 claims to kan rights.

(ii) 9 claims to right of way.

(iii) 9 claims to miscellaneous rights.

All the claims except 3 in (iii) were admitted.

5. The following records are herewith submitted.

(i) "B" Register.

(ii) "C" do

(iii) Boundary Notification.

(iv) Sketch map.

(v) Topo tracing.

6. The date from which the reservation is to take effect may kindly be inserted in the draft boundary notification.

B.—Register claims of of lands, rights to forest produce or easements in the proposed Manibyle State Forest.

No.	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of the evidence adduced in support of claims	Brief summary of the Forest Officer's arguments	Abstract of the decision of the Forest Settlement Officer	Abstract of the decision of the Court of appeal	Remarks
1	2	3	4	5	6	7		9
1	Venkanna of Soolagodu	15th Jan. 13	States he has a kan of 64 acres in Survey No. 11—75 which is not separately demarcated and defined and is willing to have an equal area adjoining Survey Nos. 10—78, 37—5, 38—7 and 36—8 for exercising his kan rights.	Shanbhog Narasappiah says that there is a kan of 64 acres in the holding of Venkanna of Soolgodu in Survey No. 11—75.	.....	His prayer is granted and the forest line is accordingly shifted.	The cattle of all the villages included in the block should be permitted to graze in the forest from April to December, both inclusive. With this modification the appeal was rejected.	
2	Hoovanna, patel of Soolagodu.	,,	Prays (1) for the exclusion of the kharab lands to the east of the stream known as Karke Hakkalu Hole from the block. (2) For the admission of the rights of way to the foot-paths.—leading from (i) Ginikalu to Soolagodu (ii) Bangargal to Yedur. (iii) Hulikal to Humadagal, (iv) Hosur to Hulikal through Survey No. 52—56. (v) Hulikal to Soolagodu and Godabeede. (3) for the continuation of their rights to remove wooden materials from the Balagay species, *viz.*,, 5 vanikes for each house once in three years, twenty bundles of rattan per annum for each house and thirty bundles of Vatey for each house per annum from the Humadagal village limits.	.....	.....	Not granted. These rights of way will be allowed within the reserve throughout the year These concessions are granted		
3	Seshe-Heggade, patel of Yedur.	,,	States the line may be shifted further away from the bagayet lands, survey No. 54—50 and the katte (survey No. 57—44) to which the cattle go for drinking water. (2) He has a kan of forty-eight acres in Survey No. 55—51 and he wants that area to be excluded from the forest. (3) Right of way to the foot-path leading to Soolagode and the cart-track leading to Hulikal may be admitted.	.....	There is no objection to shift the line half a furlong from the edge of the cultivated lands.	The villages in the malnad comprise several hamlets very often consisting of solitary houses few and far between the edge of the valleys which have been brought under cultivation. It is necessary that sufficient extent of kharab lands around each hamlet for the exercise of the rights and privileges by the raiyats under the special privileges rules relating to malnad should be separately assigned. As the point does not appear to have been taken into consideration in framing the proposal for forming the reserve there is no alternative but to shift the proposed boundary in and near each hamlet. As in		

						most places it touches the edge of bagayet and wet lands it has to be shifted further away. The above alterations will exclude the lands of the Yedur village from the reserve. Accordingly preliminary demarcation line is shifted.
4	Chinnanna, patel of Humadagal.	15th Jan. 13	States that the demarcation line may be shifted further away from the cultivated lands. (2) Survey Nos. 7—3, 8—10 and 17—25 which are occupied lands and (3) Survey Nos. 18—27 and 9—11 on which the villagers depend for their communal requirements may be excluded. (4) About 8 acres of land in the east of Survey No. 36—21 has been made into a separate survey number for being given out for cultivation on the application of one Thimmiah and the same may also be excluded. (5) Survey Nos. 15—17 and 10—15 being occupied kans may be excluded from the forest. (6) Right of way to the forest roads and to the foot-path to Soolagodu via Survey Nos. 37—5 and also to the foot-path leading from Mavi to Humadagal along the Varahi bank may be admitted.	...	Cultivation margin may be allowed. As regards these lands treated as enclosures only a small belt of land about a chain broad and not more may be excluded.	The line is shifted 5 chains away from the cultivation lands. (2) Survey Nos. 8—10 and 17—25 have been treated as enclosures with a margin of 5 chains round them. Survey No. 7 has been excluded. (3) (47-26) acres of Survey No. 18—27 and (132-25) acres of Survey No. 9—11 only excluded. (4) The line is shifted so as to cause no inconvenience to the applicant for cultivation. (5) The Survey Nos. 10—15 and 15—17 are excluded altogether from the forest. The following rights of way are admitted :— Forest roads running through Humadagal. Foot-path through Survey No. 37—5 to Soolagodu. Foot-path from Humadagal to Manibyle along the Varahi River.
5	Thammiah of Mavi, a hamlet of Humadagal.	Do	States he has 2 (two) undefined kans of 28 and 76 acres in extent in Survey Nos. 15—17 and 10—15 respectively and he has no objection to take the area equal in extent to them in the above survey numbers adjoining the Varahi River. (2) The demarcation line which surrounds his cultivation lands and house may be shifted away. (3) Gomal survey number 16—18 to which his cattle go for grazing may be excluded from the reserve.	Nagappa, shanbhog of Humadagal says that Thammiah *bin* Venkanna has a kan of 28 acres in Survey No. 15—17 and 76 acres in Survey No. 10.	As private kans though they are in the khate of a particular man of a village are given over for communal purposes of the whole village and as they are not demarcated and defined it is not convenient either in the interests of the forest or villagers to exclude the area adjacent to the khatedar's hiduvali lands. The right of forest produce in private kans may be given to the raiyats and the area included in the forest.	*Vide* decision for claim No. 4 (v) ... (2) The line has been shifted away. (3) This cannot be done but in view of the scanty growth of grass in these parts. Free grazing rights in the reserve are allowed during the prescribed season for 439 heads of cattle of Soolagodu and 120 heads of cattle of Humadagal.
6	Parameswara Bhatta of Surnahalli.	16th Jan. 13	Stating that he has two kans of 76 and 84 acres in extent in Survey Nos. 22—30 and 25—32, respectively of Humadagal and prays that 76 acres of lands may be excluded to the north of Survey No. 21—28 and 25—29 and left for his enjoyment. (2) In Survey No. 25—32 the preliminary demarcation line may be shifted further north.	Parameswara Bhatta has 2 kans of 76 and 84 acres in Survey Nos. 22—30 and 25—32 respectively.	.....	This has been granted. As only (57—28) acres have been taken for the forest out of Survey No. 25—32 there is no necessity to shift the line.

Audit and Appropriation Report on the Accounts.

No. FL. 2934-83—G. F. 19-17-3, DATED 17TH DECEMBER 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 3210—B. K. 122, dated 7th September 1917, from the Comptroller to Government submitting the Audit and Appropriation Report on the accounts for the year 1915-16.

Letter No. 3210, dated Bangalore, the 6—7th September 1917, from M. N. Krishna Rao, Esqr., B.A., Comptroller to the Government of His Highness the Maharaja of Mysore, to Rajamantrapravina Dewan Bahadur J. S. Chakravarti, Esqr, M.A., F.R.A.S., etc., Secretary to the Government of Mysore, Financial Department.

I have the honour to submit herewith the Audit and Appropriation Report for 1915-16. The delay in its submission is due to the pressure of work connected with the many reforms and changes introduced in the working of this Department

2. The Report follows the figures for the year according to the old classification as actually booked in accounts. The actuals for 1915-16 given in the published Budget Estimates for 1917-18 are, however, according to the new classification specially revised for the purpose. The divergence between the figures for the year under report as given in the Budget Estimates and in this Report cannot easily be followed by the public. It does not therefore seem to be desirable to publish this Report in the Gazette.

3. The date now fixed for submission of this Report is the 15th May. As the Budget Estimates are now presented to the Representative Assembly in April, it is necessary to alter the date for issue of this Report. It deals with the transactions of the year, the actuals of which are considered along with the Budget Estimates and it should therefore appear before the provisional Budget Estimates for presentation to the Representative Assembly are issued. The date for issue of this Report may be fixed as the 15th January. The Report for 1916-17 will be submitted on or before this date and it will also be published in the Gazette at the same time.

4. The Memorandum appended to the annual Budget Estimates explains all the important differences between the Budget Estimates of the year current at the time with the Revised Estimates therefor which in most cases represent the actuals of ten months and in some cases as in regard to the principal heads of revenue, the actuals of even eleven months. The Administration Report also compares actuals of the year under review with those of the previous year and explains all noteworthy features. The detailed comparison in the Appropriation Report of actuals with Budget Estimates of the year and with the actuals of the previous year serves no useful purpose and will be a repetition of what has already been stated in the Memorandum and the Administration Report. Such comparison is not made in the Reports of the Government of India and it may be omitted from our report also. The report, as its name implies, is intended to deal with only the work of the Audit Department and it may be confined to dealing with matters relating to Audits Appropriation, Financial irregularities, Changes in classification, etc.

Order No. Fl. 2934-83—G. F. 19-17-3, dated 17th December 1917.

In his letter forwarding the audit and appropriation report, the Comptroller has raised two general points for the orders of Government.

(i) He proposes that the date now fixed for the submission of the report may be changed from the 15th May to the 15th January in view of the fact that the actuals of the year's transactions dealt with in this report should be ready before the provisional budget estimates are to be prepared for presentation to the Representative Assembly in April.

(ii) The Comptroller also represents that as the memo appended to the annual budget estimate explains all the important differences between the budget estimate of the year current at the time with the revised estimate therefor and as further in the administration report a comparison of the actuals of the year under review with those of the previous year is made, a detailed comparison in the appropriation report of actuals with budget estimate is unnecessary and that it may be omitted in future reports.

No. Fl. 2934-83—G. F. 19-17-3, dated 17th December 1917

2. Government agree with the Comptroller that the date fixed for submission of the audit and appropriation report should be altered and direct that as suggested by the Special Officer, Mr. Datta, in his memo No. 46, dated 24th October 1917, regarding the returns to be submitted by or to the Comptroller, the report should in future be submitted to Government, in December in each year and that it be published in the Gazette at the same time.

3. The audit and appropriation report for 1915-16 which was due to be submitted by the 15th of May 1917, was actually submitted after a delay of about 4 months. Government hope that in future, such delays will be avoided and that the report for 1916-17 will be submitted on or before the due date.

4. As regards the second suggestion made by the Comptroller regarding the curtailment of the report, Government, as already directed in the Order No. Fl. 2874-923—G. F. 221-15-2, dated 9th December 1916, reviewing last year's report, consider it necessary to continue the present arrangement of comparing the actuals with the budget figures as heretofore.

5. *Change in classification.*—During the year under review, there were no important changes in the classification of heads. The actuals for the year 1915-16 are shown in the report according to the classification as actually booked in accounts and none of the changes in classification of heads sanctioned since have been incorporated therein.

6. *Actuals for 1915-16.*—Revenue and expenditure compared with budget. The budget estimates for 1915-16 provided for a total revenue of Rs. 274·02 lakhs and for a total expenditure of Rs. 273·70 on the ordinary account and for an expenditure of Rs. 66·35 on account of capital outlay not charged to revenue. The actual receipts and expenditure of the year under report were Rs. 296·56 and Rs. 248·30 lakhs, leaving a surplus of 48·28 lakhs. The capital outlay not charged to revenue was Rs. 46·48 lakhs resulting in a lapse of 19·87 lakhs.

7. *Reasons for variations.*—The improvement in revenue account in the actuals over the budget estimates of 1915-16 is the combined result of the revenue being higher by Rs. 22·54 lakhs, and expenditure being less by Rs. 25·40 lakhs, the important variations in both of which have already been referred to in Government Order Fl. 725-29—G. F. 166-15-2, dated 31st July 1916.

8. *Appropriation audit.*—The excesses over the budget grants under the several heads of expenditure entered in para 7 of the report as requiring Government sanction and stated as incurred for reasons explained in the body of the report are hereby sanctioned for being finally admitted in audit.

9. Government note that the total amount placed under objection under different heads in the Civil Department was Rs. 1,51,000 against Rs. 1,41,000 in last year, being a net increase of Rs. 10,000. The Bangalore District alone was responsible for Rs. 1,02,000 consisting of 915 items, the increase in that district during the year under report having been so large as Rs. 42,000.

10. Classification of outstanding objections was as follows:—

			Amount. Rs.
Want of proper sanction	....	....	7,000
Want of vouchers	....	....	35,000
Service payments for recovery	....	....	5,000
Want of detailed bills	...	...	68,000
Other objections	....	...	36,000
	Total	....	1,51,000

Government observe that the amount placed under objection for want of bills and vouchers is very large, *viz.*, Rs. 1,03,000 and they hope that very early steps will be taken to reduce the same as there ought to be no payment without a proper voucher.

11. Under Government Order No. Fl. 4275-328—G. F. 18-16-2, dated 2nd February 1917, the Comptroller has been empowered to write off objections of

amounts within certain limits and it is hoped that with the co-operation of Heads of Departments, the number of objectionable items will be considerably reduced. Government will be glad to have a special report from the Comptroller as to how far a reduction is effected in the number and amount of outstanding objections as a result of these directions.

12. *Objections in Public Works and Railway Department.*—The attention of the Heads of the Public Works and Railway Departments is drawn to paras 14 to 18, 19 and 20, respectively, of the report for taking needful action for the adjustment of the objectionable items reported by the Comptroller.

13. *Financial irregularities.*—Government desire to invite the special attention of all Heads of Departments to the several Financial irregularities pointed out in the concluding para (21) of the report and to request that instructions for the avoidance of such irregularities in future may be issued to all officers concerned.

Administration of the Stamp Department for the year 1916-17.

No. Fl. 3010-19--S. R. 59-17-3, dated 19th December 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 215, dated 10th October 1917, from the Commissioner of Stamps in Mysore, submitting the Report on the Administration of the Stamp Department for the year 1916-17.

Order No. Fl. 3010-19—S. R. 59-17-3, dated 19th December 1917.

The revenue from stamps during the year under review amounted to Rs. 11,96,926, showing an increase of Rs. 46,228 over that of the previous year. The increase was mainly under the heads "General" and "Court-fee Stamps" and is attributed to an increase both in litigation and monetary transactions. The only head under which there was noticeable decline was "Stamp Duty." The realizations under this head are however usually of a fluctuating character.

2. The total expenditure of the Department for the year came to Rs. 81,966 against Rs. 49,210 in the year previous. The increase of Rs. 32,755 under this head was mainly due to an increase in the quantity as well as the price of papers purchased for manufacturing stamps.

3. Inspection-work in Bangalore, Shimoga, Chitaldrug and Hassan Districts was satisfactory. The attention of the Commissioner of Stamps is invited to Government Order No. Fl. 1355-9—S. R. 41-17-1, dated 8th September 1917.

GENERAL AND REVENUE DEPARTMENTS.

Order No. Fl. 3020-69—S. R. 30-17-2, dated 19th December 1917.

Instances have frequently come to the notice of Government in which stamps affixed to papers presented in several offices are not duly punched. The attention of the Commissioner of Stamps is invited in this connection to Government Order No. Fl. 1355-9—S. R. 41-17-1, dated 8th September 1917, passing orders on the suggestions made by Mr. Datta regarding improvements to be effected in the administration of the Stamp Department. Officers receiving stamped documents should invariably see that all stamps affixed to such documents are promptly punched, as failure to do so affords scope for fraud and is likely to lead to serious loss of revenue to Government.

Officers not provided with punching machine should indent for them forthwith.

Government Order No. J 3343-6—Cts. 179-13-2, dated 19th May 1914, fixing the pay of the appointment of the Government Advocate in Mysore at Rs. 450 per mensem.

2. Government Order No. J. 1760-71—Cts. 321-05-6, dated 22nd December 1906, fixing the pay of the Public Prosecutors of the Bangalore, Mysore and Shimoga Divisions at a uniform figure, *viz.*, Rs. 150 per mensem.

Order No. J. 1877-90—Cts. 64-17-1, dated 1st December 1917.

The pay of the Government Advocate, which was Rs. 350 per mensem for several years, was raised to Rs. 450 with effect from 1st July 1914. This is represented to be inadequate for the heavy duties he is called on to perform and attention is invited to the fact that the work such as that assigned to the Government Advocate here is done by more than one officer in other important Native States and British Indian Provinces. The Public Prosecutors have also represented that their present pay of Rs. 150 is hardly commensurate with the work expected of them and this representation is supported by the District Magistrates.

2. Government consider that the circumstances explained above point to the need for raising the scale of pay of these Law Officers, so that for the important and responsible duties they are required to perform the services of competent Legal Practitioners may be secured. They are accordingly pleased to direct that the pay of the Public Prosecutors be fixed at Rs. 200-50-300 and that of the Government Advocate at Rs. 600-50-700 per mensem.

3. The extra expenditure during the current year may be met by re-appropriation of the sanctioned grants.

Letter No. 1007, dated 3rd November 1917, from the Inspector-General of Registration in Mysore, submitting the Report on the working of the Registration Department in Mysore during the year 1916-17.

Order No. J. 2165-73—Regis. 27-17-3, dated 19th December 1917.

The number of special and *Ex-officio* Sub-Registry offices at the close of the year were 57 and 21 against 56 and 22, respectively, at the end of the preceding year.

2. The total number of documents registered during the year under report came to 114,332 with an aggregate value of Rs. 2,88,12,301 as against 1,07,407 with an aggregate value of Rs. 2,63,35,449 in the previous year. This increase by 6,925 or about 6·4 per cent. in the number of registrations, both compulsory and optional, which is contributed by all the districts, except Kolar, is reported to be due to favourable seasons, increase in the transactions of Co-operative Societies, and the popularity of registrations.

3. The income of the department rose from Rs. 2,11,296 to Rs. 2,28,649, shewing an improvement by Rs. 17,353 or 8·6 per cent.

4. Nine thousand three hundred and forty-seven applications for the transfer of revenue registry were received and sent by the registering officers to the revenue authorities during the year against 8807 in 1915-16.

5. Proposals regarding the further action to be taken in respect of certain irregularities in the Sorab Sub-Registry office, are awaited.

6. The Inspector-General of Registration has inspected during the year only 15 offices against 50 in the previous year. There is much room for improvement in inspection work and general supevision especially on the part of District Registrars. Government note with regret that the District Registrar of Mysore has not inspected a single office in his district, and that very little attention was paid to inspection work by the District Registrars of Kolar and Shimoga, as also the *Ex-officio* Inspectors in the Bangalore and Mysore Districts. Government cannot lay sufficient stress on the necessity for periodical and surprise inspections of all the offices by superior officers and it is hoped that the rules laid down for inspection work in Government Order No. 497—E. A. G. 60, dated the 12th October 1917, will be strictly adhered to in future.

7. The Inspector-General has again pressed for early orders on the proposals submitted by him for the reorganisation of the Registration Department. The matter has already engaged the attention of Government and orders have been passed in Government Order No. J. 1674-8—Regis. 7-14-16, dated 20th November 1917.

8. The administration of the department continued to be satisfactory during the period under review.

Letter No. 997, dated 16—19th October 1917, from the Inspector-General of Registration in Mysore, in the matter of the calculation of registration fees payable in respect of documents relating to immoveable property situated partly in the Mysore State and partly outside it.

"I have the honor to state that, when a document relating to immoveable property situated partly in the Mysore State and partly within the British, or other, territories is registered in the Registration offices of the State, it has been the practice hitherto to assess the *ad valorem* fee for its registration upon the *total* value of *all* the immoveable property mentioned in it, instead of upon the value of only so much of it as is situated within the State. This is represented as being a great hardship to the parties. I also think it is really so, inasmuch as the registration of such document in the State is valid only as regards the property situated within it and as the document has consequently to be got registered in every one of the other territories also, so that it may be valid with respect to the property situated in each of them. The practice in British India seems to be to calculate the registration fee in such cases upon the value of only so much of the property as is situated in British Territory and as this appears to me to be a very reasonable one, I request that you will be so good as to obtain the early orders of Government as to whether the same practice cannot be adopted here also. As an application for the refund of a portion of the registration fee recovered by the District Registrar of Bangalore for the registration of a document of the kind referred to above is pending disposal in my office now, I solicit the favor of very early orders in the matter."

Order No. J. 2177-85—Regis. 26-17-2, dated 20th December 1917.

Government agree with the Inspector-General that the present practice of assessing the *ad valorem* fee for the registration of a document of the description referred to upon the *total* value of *all* the immoveable property mentioned in it operates as a hardship and needs to be modified. They are accordingly pleased to approve of his recommendation and to direct that in the case of documents of the kind in question the value of the portion situated in Mysore should invariably be specified so as to enable the Registering Officer to compute the registration fee payable thereon. If the value of that portion is not specified as above, the entire value of the document will be taken into account in computing the registration fees.

Administration Report, Bangalore District Board.

No. 3165-6—L. B. 43-17-16, DATED 11TH DECEMBER 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

The Administration Report of the Bangalore District Board for the year 1916-17, received with the President's letter No. A. C. Per. 15 of 20th October 1917.

Order No. 3165-6—L. B. 43-17-16, dated 11th December 1917.

Meetings and Attendance.—With the exception of the Taluk Boards of Magadi and Channapatna all the other Taluk Boards and the District Board held the prescribed number of meetings. Explanations of such of the Taluk Boards as do not meet the required number of times should be embodied in their reports. The attendance of official members of the Taluk Boards of Bangalore and Anekal and of non-official members on those of Channapatna and Magadi was less than 2 and 4, respectively, which is less than 40 per cent of the sanctioned strength for each class. This is unsatisfactory.

2. *Union Panchayets.*—Of the 23 Panchayets, 10 met the prescribed number of 12 times, while 3 did not meet at all. The others met on an average 7·6 times during the year. A sum of Rs. 6,837 only was spent on Union works, which represents 35 per cent of the revenue realised in them. This has not been explained. Such a state of affairs is not likely to popularise these local bodies in rural areas. There is no information regarding the percentage of expenditure to sanctioned allotments for Union works. It is hoped that under the Local Self-Government Scheme, the Panchayets will be able to devote their resources entirely on their own works in future under the sympathetic guidance of the District Board.

3. *Finance.*—There was an increase in the ordinary income of the Board during the year, chiefly under house and shop tax. Out of a total demand of Rs. 31,258 under house tax including mohatarfa a sum of Rs. 15,934 was collected. Collection work was not satisfactory; prompt steps should be taken to reduce the heavy arrears. The year closed with a balance of Rs. 1,06,321, of which Rs. 41,636 was the unspent balance under wells. In future reports, special grants with expenditure incurred thereon should be shown separately and the normal income and expenditure compared in these reports.

4. *Condition of roads.*—It is reported that some of the roads were not in a satisfactory condition owing to the low mileage allotment sanctioned for them. Suitable action should now be taken by the Board for improving these roads by giving additional maintenance allotment wherever necessary. The Government observe that the average maintenance allotment in the district for roads, *viz.*, Rs. 81·43 is low.

5. *Lapses.*—The total lapse of 68 per cent of the allotment for works in the Civil Department, mainly under well works, is not satisfactory.

6. *Rural Water-supply.*—A sum of Rs. 9,497 was spent on drinking water wells out of Rs. 30,000, allotted for expenditure during the year. Fifty-four wells works were newly sanctioned and only 14 wells were completed. The progress is far from satisfactory. Special efforts should be made in future to utilise the full grant.

7. *Miscellaneous.*—The Government are glad to note that the Ayurvedic and Unani Dispensaries under the District Board are doing good work. The number

of vaccinations performed fell from 12,845 to 11,417. A scheme for improving vaccination work and placing the staff directly under the District Board is now under the consideration of Government.

8. *Audit.*—The audit report of the accounts of 1916-17 should be expedited.

9. *General.*—Under the revised scheme of District Board Administration contemplated in the Local Boards and Village Panchayets Bill, Government hope that greater interest will be evinced by non-official members and better progress and improvement will be shown in the collection of revenue, execution of works and improvement of roads.

Administration Report of the Shimoga District Board for the year 1916-17.

Order No. 3197-9—L. B. 43-17-17, dated 13th December 1917.

1. *Constitution.*—The two new unions of Anantapur and Benkanhalli, the formation of which was sanctioned in February 1915, came into existence only during the year under report. The delay in giving effect to Government Orders in this matter has not been explained.

2. *Meetings and attendance.*—The District Board and all the Taluk Boards except that of Shikarpur met the prescribed number of times. The attendance of both the official and non-official members at these meetings was satisfactory.

3. *Working of the Union Panchayets.*—The total number of Panchayets in the district was 40. Of these only 17 met the prescribed number of 12 times, one Kulaghatta in the Honnali Taluk did not meet at all, while the others met on an average 7·4 times during the year. Out of a sum of Rs. 23,133 realised in the Unions, only a sum of Rs. 12,508 or 54% was spent in them. No expenditure was incurred in the Anantapur Union, while the amount spent in a few others was insignificant compared with the receipts. The efficient administration of these local bodies rests with the District Board which should exercise better supervision and evince more interest in their development.

Finance.—There was an increase in receipts by Rs. 30,012 over those of the previous year. This it is observed is due primarily to the levy of Railway cess sanctioned during the year and to some extent also to the better collections. The arrears, however, under House-tax including mohatarfa amounting to Rs. 15,717 are still heavy and require special efforts for their early reduction. The explanation given for the decrease under 'Ferries' is not satisfactory, and the decrease under cattle pounds indicates that greater supervision requires to be exercised over the management of these pounds.

Roads.—It is reported that many of the roads maintained out of District Funds are in an unsatisfactory condition. The mileage allotment should be raised wherever necessary, and proposals made by the District Board in this important matter as under the Local Self-Government Scheme additional revenue has accrued to them.

Water-supply.—Out of a provision of Rs. 36,700 for drinking water wells, only a sum of Rs. 11,360 was spent. Eighty-seven wells were in progress during the year and only 18 were completed. The progress under this special scheme continues to be very unsatisfactory in spite of the special facilities afforded. Government note that under the Malnad Improvement Scheme 19 wells were completed out of 37 estimated for.

Conservancy and sanitation.—Village sanitation rules were newly introduced to 379 villages and separate sites set apart in 317 villages for storing manure. Much valuable work was done by the rayats in connection with the clearance of rank vegetation, the approximate area cleared being 310 acres.

General.—There is considerable scope for improvement in the administration of the District Board, and Government hope that the facilities afforded under the new scheme will be fully availed of and improvements shown in all directions in the immediate future.

2. *Meetings and Attendance.*—The District Board and all the Taluk Boards, except those of Molakalmuru and Harihar, held the prescribed number of six meetings during the year. The attendance of official members in the Taluk Boards of Holalkere and Jagalur, and of non-official members in Harihar was unsatisfactory.

3. *Unions.*—Only 6 out of the 28 unions met the prescribed number of twelve times, while the rest met on an average 6·4 times during the year. Lack of interest in this connection was specially noticeable in the case of the larger unions, some of which, met only three times during the year. This is not at all satisfactory, and calls for special efforts on the part of the District Board to improve their administration. Out of a sum of Rs. 24,279 realised in the unions, a sum of Rs. 11,959 or 49 per cent was spent in them on conservancy and sanitation and public works, etc.

4. *Finance.*—There was an increase in the receipts by Rs. 12,806 which was due partly to the levy of railway cess on excise revenue, and partly to the better collection work during the year. The expenditure on ordinary items was Rs. 83,174 against Rs. 77,183 in the previous year. The arrears under house tax including mohatarfa are still heavy, and steps should be taken to their speedy collection. The year closed with a balance of only Rs. 1,82,758, of which the accumulated railway cess and the unspent balance under drinking water wells at the end of the year amounted to Rs. 68,734 and Rs. 35,510 respectively.

5. *Lapses.*—The lapse under public works carried out by the Civil Department which was 52 per cent of the sanctioned allotment is very heavy and should not be allowed to recur. The attention of the President is invited in this connection to Government Order No. 8030-7– L. B. 289-05-2, dated 12th March 1907, directing the Presidents of District Boards to have projects ready with estimates prepared in time before they are selected and entered in the budgets.

6. *Rural Water-supply.*—Out of an allotment of Rs. 27,500, only a sum of Rs. 12,265 or 44 per cent was spent on wells. One hundred and thirty well works were in progress, and 35 works were completed. The execution of these works should be carried on more energetically and the Musto's boring plant purchased by the District Board used largely.

7. *Roads.*—The information furnished in the report about the condition of roads is meagre. The subject should be dealt more in detail in future reports. It is noted that one village road was taken over by the District Board for maintenance.

8. *District Board Railway.*—Government note that arrangements are in progress for the early collection of the required amount of loan for the Chitaldrug-Chikjajur Railway. As orders have been passed sanctioning a grant of half the cost of the project, it is hoped that there will be no difficulty in raising the loan speedily.

General.—The administration of the District Board leaves considerable room for development and improvement, especially in regard to the execution of works in rural areas.

The District Fund Administration Report of the Mysore District for the year 1916-17.

Order No. 3223-4—L. B. 43-17-19, dated 14th December 1917.

Meetings and Attendance.—With the exception of the Taluk Board of Mandya, all the other Taluk Boards held the prescribed number of meetings during the year and the average attendance among official and non-official members was 2·1 and 4·5 respectively. The average attendance at the Yedatore Taluk Board meetings shown in the statement is evidently incorrect as it goes to show that all the meetings were held without a quorum.

Unions.—One union was abolished during the year. Of the 86 unions only 7 held the prescribed number of 12 meetings, 8 met only once, one union did not meet at all, while the rest met on an average 6·4 times during the year. A sum of Rs. 39,381 was collected in the unions and a sum of Rs. 20,982 or 53 per cent was spent in them. It is reported that most of the unions do not take any interest in their work. The proposals now before the Government to invest these bodies with larger powers will, it is hoped, bring about the desired improvement.

Finance.—The arrears at the end of the year amounted to Rs. 57,577, of which it is observed that a sum of Rs. 53,394 was under house tax including mohatarfa. The collection work under this particular item is most unsatisfactory being only 41 per cent of the total demand including arrears. The attention of the President is invited to para 2 of last year's Government review on the administration report and he is requested to see that special measures are adopted to reduce the heavy arrears and insure the prompt collection of the current demand. The finances of the Board should receive immediate consideration. The year closed with a balance of Rs. 2,46,372, of which a sum of Rs. 23,203 represents the unspent balance under drinking water wells fund. In future reports the President is requested to show the ordinary income and expenditure separated from the special grants and extraordinary expenditure.

Rural water-supply.—Only a sum of Rs. 6,797 was spent on works during the year out of an allotment of Rs. 30,000. There were 102 incomplete works at the beginning of the year and 73 new works were added out of which only 26 works were completed. The progress leaves much to be desired and it is regretted that the facilities afforded from time to time by Government for the speedy execution of works have not been properly availed of.

Public works.—The lapse under Public Works executed by the Civil Department was 44·3 per cent of the allotment appropriated for new and incomplete works. There were 124 incomplete works at the end of the year. The number is large and an earnest attempt should be made for pushing incomplete works of over two years to completion early.

It is reported that the construction of a 1st class musafirkhana on the Chamundi Hill has made no progress at all though it was sanctioned in 1914-15. The Chief Engineer is requested to see that the work is taken up and completed early.

Miscellaneous.—The number of deaths showed an increase of 6,016 over last year's figures. This was due to the prevalence of plague and cholera in a severe form in the district.

No. 3223-4 —L. B. 43-17-19, DATED 14TH DECEMBER 1917.

The number of vaccinations done fell from 15,759 to 12,160.

General.—Revision of the Office Establishment of the President, District Board, was sanctioned in Government Order No. 1850-3—L. B. 104-16-16, dated 27th September 1917. Government observe that there is much scope for improvement in the administration of the District Board. Greater attention should be paid to the realisation of the revenue and the timely execution of works for under the existing state of affairs the good intentions of Government are frustrated by inadequate progress in all directions and very little interest is shown by the District Board Members in its general administration. Government hope that in view of the extended powers over financial and other matters which the District Board will be able to exercise, under the Local Self-Government Scheme, the District Board will evince greater interest in the management of its affairs and increase the usefulness and popularity of the local bodies in the district.

Administration Report of the Kolar Gold Fields Sanitary Board for the year 1916-17, received with the President's letter No. 105, dated 28th September 1917.

Order No. 3225—L. B. 43-17-20, dated 14th December 1917.

Recorded.

2. *Composition of the Board.*—The number of non-official members on the Board was raised by one, by the addition to it of a non-official Indian gentleman in July 1916. The total number of non-official members now on the Board is 8.

3. *Meetings and attendance.* The attendance at the meetings was satisfactory and no meeting had to be adjourned, for want of a quorum.

4. *Financial position.*—There was a decrease in the total income of the Board, being Rs. 87,205 as against Rs. 90,978 in 1915-16 with a noticeable fall of Rs. 3,579 in the income derived from market collections. This is attributed to various causes chief among which were the outbreak of plague, and restricted railway traffic owing to war conditions.

The percentage of collection under house tax including mohatarfa was 66·94 per cent against 76 per cent in 1915-16. This is not satisfactory. The expenditure incurred by the Board was Rs. 86,264, exclusive of the fixed deposit of Rs. 20,000 in the Mysore Bank and a book transfer of Rs. 8,656. Out of the sum of Rs. 20,000 at the credit of the Board kept in the Mysore Bank as a fixed deposit 5½ per cent war loan bonds to the value of Rs. 10,000 were purchased during the year.

5. *Public works.*—The amount spent on public works was Rs. 24,812 against Rs. 35,687 in the previous year. The reasons for this appreciable decrease have not been explained. It is, however, satisfactory to note that the roads of the Sanitary Board were maintained in a satisfactory condition.

6. *Public health.*—Except for the recrudescence in a severe form of plague which accounted for 531 deaths, the public health was generally good. The usual preventive measures against plague were adopted, and 13,890 inoculations were performed.

7. *General.*—A scheme of the training of barber midwives in scientific midwifery submitted by the Board has been sanctioned in Government Order No. 2163-5—L. B. 58-17-4, dated 11th October 1917.

Government note with pleasure that the non-official members of the Board cordially co-operated with the official members and that the management of the affairs of the Board during the year was satisfactory.

The District Fund Administration Report of the Tumkur District for the year 1916-17.

Order No. 3226—L. B. 43-17-21, dated 14th December 1917.

Constitution of Boards.—There was no change in the constitution of the Boards during the year. Four unions were newly constituted in taluks of Tumkur and Gubbi. A non-official Vice-President was elected for the District Board during the year from 17th February 1917, this being the first occasion on which such an election was held.

2. *Meetings and Attendance.*—Three meetings of the Taluk Boards had to be adjourned for want of a quorum. The attendance of official members on the Taluk Boards of Sira and Koratagere and of non-official members on the Kunigal Taluk Board was very unsatisfactory. It is hoped that greater interest will be evinced in the work of these Boards by the official and non-official members in future.

3. *Union Panchayets.*—The prescribed number of twelve meetings was held by only ten Panchayets. The rest met on an average 7·3 times during the year. Out of the total income of Rs. 18,103 realized in the unions only a sum of Rs. 9,740 or 54 per cent was spent. It is seen from Statement No. V appended to the report that in some of the unions, the expenditure incurred is insignificant compared with the receipts. This is unsatisfactory, and calls for special attention. Endeavours should be made for carrying out works in unions according to an approved programme with reference to their financial condition.

4. *Demand, Collection and Balance.*—The demand under Local Cess and Railway Cess has been taken as equal to the actual collection. This is incorrect. The correct demand should be ascertained and furnished in future reports.

There was an increase of Rs. 14,550 under receipts during the year and this is attributed to better collection under the main heads of receipts, but the arrears, *viz.*, Rs. 6,403 or 28 per cent of the demand under House-tax including Mohatarfa are still heavy.

5. *Lapses under Public Works.*—In the Civil Department 60 per cent of the allotment on works other than wells was allowed to lapse. No reasons have been assigned for this heavy lapse. This should not be allowed to recur.

6. *Water Supply*—Out of the allotment of Rs. 25,000 for drinking water works, only Rs. 16,879 were spent. Two hundred and fifty-seven well works were in progress during the year and 53 works were completed. The progress cannot be regarded as satisfactory in view of the many facilities afforded in this connection.

Special efforts are needed on the part of local officers to ensure better results.

7. *General.*—The Administration of the District Funds require greater attention in respect of collection of revenue and execution of works.

2. *Meetings and attendance.*—The Taluk Boards of Belur and Hole-Narsipur did not meet the prescribed number of times during the year. The average attendance at the meetings of the Channarayapatna Taluk was not satisfactory being as low as 4. The Taluk Boards should be advised to meet regularly and secure proper attendance of members.

Working of Union Panchayets.—Though there was an increase in the number of meetings held by the Panchayets, there is still much room for improvement as only 2 out of the 20 unions held the prescribed number of meetings, while the rest met on an average 8·3 times during the year. Out of a sum of Rs. 17,282 realised from the unions it is noted that a sum of Rs. 14,992 was spent in them as against Rs. 13,930 and Rs. 8,253, respectively, in 1915-16.

Financial.—There was an increase in the receipts by Rs. 14,813 and this is attributed to the increased contribution from State Funds towards Drinking Water Wells Fund. The arrears under 'House Tax including Mohatarfa' amounting to Rs. 7,392 and under 'Tolls' amounting to Rs. 9,073 are very heavy and prompt steps should be taken to reduce the arrears and ensure that the collection work is carried on more satisfactorily in future. The total expenditure incurred during the year was Rs. 1,28,960 against Rs. 94,259 in the previous year, the increase being mainly under public works. The lapse under works executed by the Civil Department though not so large as in the previous year being 55·9 per cent against 84·02 per cent is still heavy and the President should adopt suitable measures to minimise the chances of such lapses occurring. The year closed with a balance of Rs. 1,26,485 of which a sum of Rs. 20,276 represents the unspent balance under Drinking Water Wells Fund.

Rural Water-supply.—The progress under the special scheme for water-supply in rural areas continues to be unsatisfactory. Out of an allotment of Rs. 25,000 excluding the contribution received from raiyats, a sum of Rs. 5,773 was spent on works. Eighty-nine wells were in progress during the year and 9 wells were completed. Government hope that full advantage will be taken of the various facilities afforded from time to time for the proper working of the scheme and that every endeavour will be made by the President to secure better progress in future.

Roads and bridges.—The progress made in the construction of the bridge across the Shankara Tirtha river should have been clearly indicated and when it is likely to be completed. The average mileage allotment for District Fund roads showed an increase being 106 rupees against 87·6 in the previous year. It is satisfactory to note that much valuable work was done by the raiyats in opening inter village roads.

General.—Orders were passed sanctioning a revised scale of establishment for the office of the President, District Board. There is much scope for improvement

in the administration of the District Board especially with reference to collection of revenue, execution of public works and the proper working of the Union Panchayets.

The District Fund Administration Report of the Kadur District for the year 1916-17.

Order No. 3362-4—L. B. 43-17-24, dated 21st December 1917.

Meetings and attendance.—The District Board and all the Taluk Boards, with the exception of the Taluk Board of Chikmagalur, held the prescribed number of meetings. The average attendance of officials at the meetings of the Taluk Boards was only 1·65 against 2·6 in the previous year. This is unsatisfactory and the attention of official members should be drawn to the duty of attending the meetings regularly.

Unions.—Of the nine Unions in the district none met the prescribed number of times, and only 72 meetings were held in all against 77 in the previous year. The importance of holding meetings regularly should be impressed on the Panchayets and the members should be advised to take an active interest in the management of the affairs of these local bodies as under the Local Self-Government Scheme they will be invested with additional powers over financial and other matters.

Finance.—There was an increase of Rs. 19,592 in the receipts of the year due to the levy of Railway Cess. The total expenditure for the year was Rs. 61,987 against Rs. 77,090 in the previous year, the decrease being particularly large under "A" Public Works. It is reported that the District Board was unable to undertake any original works owing to its poor financial condition but it should have been explained to what extent the finances of the Board have improved by the additional revenue that has accrued to it under the Local Self-Government Scheme. Action should also be taken for effecting any possible improvement in this direction and sufficient attention should be paid to the punctual and prompt collections of the Boards revenues.

Condition of roads.—The condition of many of the roads maintained out of District Funds is reported to be not good owing to the mileage allotment being low, *viz.*, Rs. 56. Proposals should be submitted for increasing the allotment having regard to the additional revenue that has accrued to the Board. The question of opening up the malnad parts of the district has been raised in the report. Government will be pleased to consider sympathetically any special scheme which the District Board may propose in this connection, if there is an assurance by the Board that adequate provision will be made for meeting the maintenance charges and part of the cost of any such scheme.

Rural water-supply.—Out of an allotment of Rs. 13,950 for drinking water wells only a sum of Rs. 6,853 was spent. Fifty-five wells were in progress and eleven wells were completed. The progress is not satisfactory. There is still a large balance available for expenditure and strenuous efforts should be made to utilise the grant fully and employ the special establishment sanctioned usefully.

District Board Railway.—This subject is engaging the consideration of Government and orders will be passed in due course.

General.—Orders have been passed in Government Order No. 1862-5—L. B. 104-16-19, dated 27th September 1917, sanctioning the revision of the District Board Office Establishment. The improvement of the Boards Finances, the condition of the roads and the execution of works should receive the serious consideration of the Board in the current year.

3. The Municipal Board of Bagepalli plead want of funds to employ a separate establishment for Municipal work and request that the Local Fund clerk may continue to do Municipal work also free of cost as heretofore. The Deputy Commissioner states that a clerk on Rs. 15 may be sanctioned for Municipal work if the Government are prepared to make a grant-in-aid for the purpose. Government consider that no grant can be given for this purpose, and that the Municipal Board should improve their finances in order to employ a separate establishment for Municipal work, and that in the meanwhile the work may be got done by the Local Fund establishment, the Municipal Council contributing Rs. 60 per annum towards the cost of this establishment.

4. The Municipal Board of Gudibanda propose that the Local Fund clerk may continue to attend to the Municipal work also as there is not sufficient work for a separate Municipal clerk. Government approve of the recommendation of the Board as a temporary measure, and direct that a third of the cost of the Local Fund establishment be contributed from Municipal Funds.

5. The Mulbagal Municipal Council suggest that each Municipal Council should be left to employ whatever establishment is found necessary for their requirements without exceeding the total cost suggested for the particular class of the Municipality concerned. Government consider that not only should the total cost prescribed for each Municipality not be exceeded but that the number of employees and the rates of pay suggested also should not be exceeded without the special sanction of Government.

Order No. 3190-2—Ml. 67-17-12, dated 13th December 1917.

As regards the scale of establishment found necessary, the several Municipalities in the district are classified as shewn in the margin.

Chikmagalur	I
Tarikere	III
Birur	III
Kadur	IV
Mudgere	IV
Narasimharajapura	IV
Koppa	IV

2. Tarikere, Birur, Kadur, Mudgere, and Koppa are permitted to entertain the scale of establishment laid down in the order of the 30th July 1917.

3. At present the Local Fund Clerk of the Narasimharajapura Sub-Taluk attends to the office work of the Narasimharajapura Municipal Council and the Municipal Council contribute to the District Fund two-thirds of the pay of this clerk. They propose to continue the present arrangement and also to entertain an additional clerk on Rs. 10. But the Deputy Commissioner recommends that the scale of establishment fixed for a fourth class Municipality may be sanctioned on the ground that a suitable man cannot be had on a pay of Rs. 10 and that the establishment charges have to be borne entirely from the Municipal Funds. Government consider that in this case it is sufficient if a clerk on Rs. 15 is appointed and a grant of Rs. 3 towards monthly contingent charges is made, the charge being borne entirely from Municipal Funds and the Municipal contribution towards the pay of the Local Fund Clerk being stopped from the date of the entertainment of the Municipal Clerk.

4. The Chikmagalur Municipal Council propose to entertain separate office establishments for the President and the Vice-President. There cannot be two offices one for the President and the other for the Vice-President. The Municipal Office as a whole should be under the orders of the President. Government consider that the scale of establishment for a 1st class Municipality laid down in the order of the 30th July 1917 read above is suitable and should be adopted.

Report on the working of the Special Hospitals in Mysore for the calendar year 1916 received with the Senior Surgeon's letter No. G. C. 215, dated 19th September 1917

Order No. 3452-3—Med. 49-17-2, dated 28th December 1917.

Recorded.

2. The delay of nearly five months in the submission of the report in spite of the observations made in the reviews of previous years is unsatisfactory.

3. *The Lunatic Asylum.*—The total number of insanes treated during the year was 300, including 77 of the Civil and Military Station, against 350 in 1915. Of these 36 were cured, 39 discharged in an improved condition and three transferred to friends. The percentage of cures to the daily average attendance, which was only 16·68 against 23·66 in 1915 does not compare favourably even with the record of the previous six years.

There were 19 deaths during the year among the inmates of the Asylum and 1 among persons under observation. The general health of the inmates seems to demand greater attention.

It is unsatisfactory to note that the usual white and colourwashing to the buildings was not attended to by the Public Works Department during the year.

4. *Leper Asylum.*—This institution afforded relief to 73 unfortunates during the year, of whom 43 were discharged and 6 died. It is noted that the usual treatment of administering Chalmogra oil internally and Margosa oil externally was adopted but the result of the treatment has not been indicated in the report.

5. *Maternity Hospitals.*—The Maternity Hospital at Robertsonpet showed a considerable increase both in the number of in-patients and out-door patients treated during the year, thereby indicating its growing popularity. In the Bangalore Maternity Hospital, as well as in the Vani Vilas Hospital, Mysore, there was a large decrease in the number of out-door patients, the number treated during the year in each institution being 13,521 and 9,968 against 16,437 and 12,242, respectively, in 1915. No explanation for this decrease has been given in the report.

6. *Isolation Hospital, Bangalore.*—The total number treated during the year was 650 against 562 in 1915 and the cost of the institution was Rs. 8,566 against Rs. 7,994 in 1915.

7. *The Minto Ophthalmic Hospital.*—The number of in-patients treated during the year was 1,587 against 1,481 in 1915. There was a decrease of 943 in the number of out-patients treated.

The cost of institution rose from Rs. 24,363 to Rs. 30,156.

8. *General.*—The attention of the Senior Surgeon is invited to the importance of periodical inspections of these Special Hospitals and he is requested to devote a paragraph in future Administration Reports to this matter, special reference being made to the condition of buildings, accommodation and equipment.

Read—

The Report on Sanitation in Mysore for the calendar year 1916, received from the Sanitary Commissioner with his letters Nos. P. 49 and P. 49-3, dated the 31st August and 3rd November 1917 respectively

Order No. 3181-9—San. 61-17-5, dated 13th December 1917.

A scheme for the re-organisation of the Public Health Department was under consideration during the year and brought into force early in 1917, when a whole time Sanitary Commissioner was appointed. The Central Sanitary Board was also reconstituted and rules were framed for regulating the work of the Board. It is hoped that under the new scheme, greater and more systematic attention will be paid to sanitation.

2. *Seasonal conditions.*—The annual State Rainfall was above normal and was slightly in excess of that of the previous year. As a result of this there was a decline in the prices of the important food grains.

3. *Vital Statistics.*—The total number of births for the year was 115,915 against 114,253 in the previous year, the birth-rate per thousand of population being 20·31, as against 20·03 of the previous year. It was also in excess of the quinquennial average by 0·84, and it exceeded the death-rate by 3·68. The death-rate was slightly in excess of the birth-rate in Shimoga and Kadur Districts. The number of deaths recorded in the State was 94,890 as against 88,580 in the previous year. The death among infants under one year of age showed an increase of nearly 1,000 as compared with the previous year. The question of providing maternity aid in all important centres of population and rural parts is engaging the attention of Government.

(2) The Sanitary Commissioner should have stated in the report to what extent the registration of vital statistics underwent verification.

(3) There was a considerable fall in the number of vaccinations performed during the year, the number being 97,280 against 110,744 in 1915. The decrease has not been satisfactorily accounted for.

4. *Principal causes of death.*—(1) The year was comparatively free from any severe outbreaks of cholera or small-pox epidemics and the mortality from these causes showed a considerable decrease as compared with the figures for the previous year.

(2) The number of plague attacks and deaths during the year was 13,532 and 9,779 respectively and was much in excess of the deaths from this cause in the previous year Government note that a detailed study of the causes for this variation is being undertaken with a view to arrive at such conclusions as would be useful in adopting precautionary measures in anticipation of an outbreak. The results of the investigation will be awaited with interest. It is however satisfactory to note that the number of inoculations done during the year was the highest on record.

(3) The death-rate from fever was 6·79 against 6·43 in 1915. It is observed that the death-rate from this cause was lower in the Malnad districts of Shimoga, Kadur and Hassan and this is attributed to the free distribution of quinine which the Malnad Improvement Committee is undertaking. The anti-malarial experiments that are being conducted in several parts of the State, will, it is hoped, produce results which will tend to reduce further the mortality under this head. The results of these experiments should be reported to Government.

No. 3181-9—San. 61-17-5, dated 13th December 1917.

5. *Sanitation in malnad.*—Various measures of improvement and prevention were adopted to improve the sanitation in the malnad and the reports show tangible work in many directions. Delay in opening all the hospitals sanctioned by Government will be brought to the notice of the Senior Surgeon. The work of the Itinerant Dispensaries require careful supervision. The results of the sanitary and scientific malarial survey proposed by the Sanitary Commissioner will be awaited with interest.

6. *Sanitary works.*—The total expenditure incurred by the Municipalities on sanitary works was Rs. 1,63,180 the principal works being under drainage, water supply, and conservancy lanes. The expenditure incurred by the Public Works Department on works of sanitary nature was Rs. 2,94,833, large outlays having been incurred in connection with the drainage of the extensions of the Bangalore City, laying out a system of pipes for watering important roads in Mysore City and effecting improvements in respect of water-supply to the high level bungalows and mansions in Mysore City and to the Shimoga town.

7. *General.*—Government regret to note that no action was taken during the year to give effect to the scheme of medical inspection of schools sanctioned so long back as March 1916. The work done by the Sanitary Inspectors, employed in the districts as well as by Municipalities has not been reported upon. This should be done in future reports.

(2) Government desire to invite the attention of the Municipal Councils and other local bodies to paras 22, 31 and 32 of the report containing useful suggestions regarding the adoption of preventive measures in connection with plague and malaria.

(3) There was a considerable delay in the submission of the report which should be avoided in future.

Report on the working of the Government Press, the *Mysore Gazette* Office and the Office of the Registrar of the Authorised Publications in Mysore for the year 1916-17 submitted by the Superintendent, Government Press, with his letter No. 235 of 13th August 1917

Order No. G. 8624-74—G. P. 16-17-3, dated 22nd December 1917.

Recorded.

2. During the year under review, additional plant, types and machinery including a monotype composing machine were purchased at a cost of Rs. 30,235-0-2 and types valued at Rs. 5,685-3-6 were cast. It is hoped that with this additional equipment, the usefulness of the Press will be materially enhanced.

3. The expenditure during the year amounted to Rs. 1,49,257-5-0 as against Rs. 1,23,873-6-9 in the previous year, the rise being due mainly to the increase in the payments for overtime work necessitated by special and urgent calls on the Press during the latter part of the year in connection with the printing of Mr. Datta's notes and the budget estimate and by the holding of a second session of the Representative Assembly in April last. Government trust that every effort will be made to keep the charges under "Overtime allowances" as low as possible.

4. The General Educational School opened in the Press for imparting instruction to the juvenile employees of the Press did useful work and increased in popularity, but the work of the Technical School was not satisfactory, not even one of the nine pupils sent up for the Madras Technical Examination having come out successful. It is a good feature that ten of the regular Press employees qualified themselves by passing the Madras Technical Examinations.

5. Government are pleased to note that, on the whole, the Press and other institutions under the charge of Mr. Yates, who has recently retired from service, were efficiently managed during the year under review and they take this opportunity of placing on record their high appreciation of the valuable services rendered by him during the twelve years he was in charge of the Government Press.

The Annual Report on the Government Stud Farm at Kunigal for the year 1916-17, received from the Chief Commandant, Mysore State Troops, with his letter No. C. 4, dated the 26th October 1917.

Order No. G. 8041-2—Mily. 138-17-3, dated 14th December 1917.

Recorded.

2. There were 9 stallions, 118 mares and 89 foals of the total value of Rs. 87,780-10-0 in the Farm on the 1st July 1917, as against 9 stallions, 109 mares and 125 foals valued at Rs. 1,25,452-6-0 that were in the Farm on the 30th June 1916.

3. Government regret to note that in spite of the publicity given to the fact that one stallion was available at Bangalore and another at Mysore for improving the local breed of ponies, their services were not sufficiently utilized by the public. A standing advertisement that stallions are so available may be published in the Gazette.

4. There was an outbreak of strangles in the Stud Farm during the year but precautionary measures were successfully adopted in time and the disease was stamped out soon.

5. It is satisfactory that 15 country bred horses of the Stud Farm were sold during the year under review at Poona and at Bombay for an average price of Rs. 1,635-5-4 per animal.

6. Government await with interest the result of the experiments in pony breeding for which five pony mares have been imported from Ahmednagar.

Stationery Depot.

No. G. 7549-98—G. M. 231-17-3, DATED 5TH DECEMBER 1917.

Administration Report on the working of the Government Stationery Depot during the year 1916-17, received with letter No. 267, dated 15th August 1916, from the Superintendent of Stationery.

Order No. G. 7549-98—G. M. 231-17-3, dated 5th December 1917.

The value of paper and other articles of stationery of Indian manufacture purchased for the Depot increased from Rs. 77,526-5-6 during 1915-16 to Rs. 1,29,901-12-0 during the year under report, the increase being due to the present war conditions.

2. It is reported that seventeen offices did not send their indents during the year 1916-17, on the ground that they had a sufficient stock on hand. This shows that a larger quantity than necessary was indented for in previous years, and that the indents were not carefully scrutinized in the Office of the Superintendent of Stationery. It is hoped that such irregularities will not recur in future.

3. Though Government have more than once noticed the unsatisfactory manner in which indents for stationery and forms are sent in, it is regrettable to find that even during the year in question there was little or no improvement in this direction, some requisitions having been received two months after the due date.

Government consider this extremely unsatisfactory and direct that indenting officers should in future years exercise greater control over the preparation of indents, and see that the provisions of the Stationery Rules are strictly conformed to.

4. The work of the Depot was on the whole satisfactory.

2. With the exception of the inspection of raingauge stations, the work of the Department has on the whole been satisfactory. The percentage of stations inspected during the year under review has fallen to 90 from 91 in the previous year. The work was most unsatisfactory in the districts of Kolar and Tumkur, where only 80 and 79 per cent of the stations were inspected. The Revenue Commissioner is requested to instruct the Deputy Commissioners to see that all the stations without exception are inspected in future by the Revenue Officers.

3. Government are glad to note that the arrangements made for upper air research last year were found successful and the results have been utilised in making monsoon forecasts.

4. Government will also be glad if in addition to the arrangements now made for the supply of meteorological information to the public, the Department can also undertake to publish in Kannada systematically information likely to be of use to agriculturists and others. Proposals for the purpose may be sent up through the Revenue Commissioner in consultation with the Director of Agriculture.

OFFICIAL MEMORANDUM.

Order No. G. 8914-19—G. M. 585-16-2, dated 29th December 1917.

In Government Order No. G. 16228-33—G. M. 585-16-1, dated the 29th May 1917, the Secretary to Government, General Department (now Chief Secretary) has been made responsible for exercising due control in the matter of placing Government Orders and official papers at the disposal of the Press, in accordance with suitable rules to be framed for the purpose. The following rules are accordingly issued and they will be brought into force from the 1st January 1918:—

(1) In the case of all important Government Orders likely to be of public interest, the instructions of the Secretariat officer in immediate charge of the Branch should be sought in the first instance as to whether the order may be placed at the disposal of the Press.

(2) Such officer may pass orders in the case of papers enumerated in Appendix A. These papers, however, need not be communicated to the Press as a matter of course but only when they contain some matter of real interest to the public.

(3) On all other papers the orders of the Secretary to Government in the Department concerned should be obtained. The latter will refer the question to the Chief Secretary, in doubtful cases.

(4) When an order is placed at the disposal of the Press, it should be communicated to all the persons mentioned in Appendix B and a copy sent to the Secretariat Press Room. Papers of purely local interest should be communicated only to the Editors of Newspapers and others in the Mysore State, *i.e.* 1 to 16 of Appendix B and a copy sent to the Secretariat Press Room.

(5) Copies of notifications relating to the appointment, leave, transfer, etc., of officers may be placed in the Press Room with the permission of the officers in immediate charge of the Branches.

READ—

Paragraph 2 of Government Order No. 667-8—A. & I. 97-14-16, dated 10th August 1915, stating that Government consider it desirable and necessary to frame a rule enabling them to waive in any particular instance the forfeiture of the preliminary purchase money deposited under the rules for the grant of Industrial Takavi Loans and refund the money to the party concerned and to delegate the power to the Director of Industries and Commerce, and requesting the Director to suggest the necessary amendments to the rules.

2. Paragraph 4 of letter No. 3212-270—I. & C. 21-17-30, dated 7th December 1917, from the Director of Industries and Commerce, suggesting that the third sentence of condition 2 of Form No. 4 (Hire purchase agreement) attached to the rules issued with Government Order No. G. 2097-145—G. M. 55-12-239, dated 2nd September 1913, may be amended as follows:—

Existing	Proposed
"If he does not, then such sum shall belong absolutely to the Director."	"If he does not, such sum shall ordinarily be forfeitable to Director."

Order No. 5787-8—I. & C. 21-17-36, dated 18th December 1917.

The modification proposed by the Director is sanctioned with a slight alteration as shown below:—

"If he does not, then such sum shall be forfeited to Government at the discretion of the Director of Industries and Commerce." If in any particular instance the Director refunds the purchase money deposited by the applicant, a report should be made to Government stating the circumstances under which the rule is recommended to be relaxed.

Paragraph 5 of Government Order No. 2680-730—I. & C. 48-17-3, dated 10th September 1917, stating that separate orders will issue relating to the transfer of the work of the Registrar of Joint Stock Companies from the Inspector-General of Registration to the Department of Industries and Commerce.

Order No. 6120-69—I. & C. 181-17-1, dated 31st December 1917.

Government are pleased to direct that the work of registration, (inspection, audit) and other duties under the Mysore Companies Regulation relating to Joint Stock Companies, now vesting in the Inspector-General of Registration as *ex-officio* Registrar of Joint Stock Companies, be transferred to the Commercial Section of the Industries and Commerce Department with effect from the 1st February 1918. The Inspector-General of Registration who is now *ex-officio* Registrar of Joint Stock Companies will cease to exercise the latter functions from that date. They are also pleased to appoint the Deputy Director of Commercial Developments to be *ex-officio* Registrar of Joint Stock Companies. In all matters relating to Joint Stock Companies he will correspond direct with Government. The establishment appertaining to the Joint Stock Companies under the Inspector-General of Registration will be transferred to the Department of Industries and Commerce from that date.

2. Mr. C. Ranganatha Rao Saheb, Deputy Director of Commercial Developments and Statistics, is requested to submit in consultation with the present Registrar proposals as to the various subsidiary measures to be adopted to give effect to the Companies Regulation and all other work to be done in connection with Joint Stock Companies.

Centage Charges levied on "Contribution Works."

No. 1113-15—C. P. S., DATED 20TH DECEMBER 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

(1) Note No. 62—C. P. S, dated the 18th May 1916, by the Public Works Secretary, suggesting the desirability of waiving the centage charges for "establishment" and "tools and plant" as well as for supervision and storage, now levied on contribution works, as laid down in the schedule attached to Government Order No. 542-5—C. P. S., dated the 18th September 1913.

(2) Further Note No. 72—C. P. S., dated the 11th July 1917, by the same officer, submitting the resolutions of the Committee appointed to consider the question as to the source from which the cost of additional lights to be installed in the Bangalore City and the extensions is to be met and recommending that the centage charges levied on contribution works undertaken by the Electrical Department might be waived.

Order No. 1113-15—C. P. S., dated 20th December 1917.

It is reported that the charges now levied on "contribution works" undertaken by the Electrical Department amount to 35 per cent of the estimated cost of works, *viz.*, 25 per cent on account of "establishment" and "tools and plant," and 10 per cent for storage and supervision.

2. The Chief Electrical Engineer suggested, and the Financial Secretary concurred therein, that such percentage charges were excessive, and need not be recovered, as the estimates prepared by the department for "contribution works," provided for all actual charges.

3. In these circumstances, the Government are pleased to direct that no "centage charges" be levied on contribution works with effect from the date of this order.

Famine Relief Works Programmes.

No. 2573-92—P. W. 12936-55, DATED 4TH DECEMBER 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

The following review by the Revenue Commissioner in Mysore of the programmes of Famine Relief Works for the year 1917, received with his letter No. C. Per. 112, dated the 23rd August 1917.

Dates of receipt of the programmes.—The dates on which the Famine Relief Programmes of the several districts were received in this office from the Superintending Engineers concerned are given below :—

District	Public Works Programmes	Village Works Programmes
Bangalore	10th April 1917	24th July 1917
Kolar	22nd March 1917	22nd March 1917
Tumkur	16th June 1917	29th June 1917
Mysore	22nd April 1917	10th May 1917
Hassan	22nd March 1917	21st June 1917

Kadur	19th February 1917	19th February 1917
Chitaldrug	22nd March 1917	29th March 1917

Only programmes of Kadur were received on the prescribed date, *i.e.*, 1st March 1917. The Village Works Programmes of Tumkur and Hassan Districts and Public Works Programmes of Tumkur District were received very late. The Village Works Programme of the Bangalore District was the last to be received (24th July 1917). The delay is very unsatisfactory.

2. *Summary of programmes.*—The total number of projects of all kinds (Public Works and Village Works) is 6,455 of an estimated aggregate cost of Rs. 2,92,56,735, of which a sum of Rs. 1,90,42,920 is available for the employment of 28,56,43,800 units of famine labour. Particulars of several classes of projects are given in the following statement.

No. 2573-92—P. W. 12936-55, dated 4th December 1917.

4. *Number of persons to be provided for and adequacy of programmes.*—According to Section 20 of the Famine Code, provision has to be made for the relief of 727,489 persons for six months, *i.e.*, for 1,309,48,020 units of famine labour.

It will be seen from the following statement that the provision under the sanctioned Public Works is very deficient in the districts of Kolar and Hassan, though there is a slight increase as compared with the previous year. The provision under the same head in the remaining districts is fair. The provision under sanctioned Village Works is very poor in all the districts, though there is an increase of 4 per cent over the previous year's provision on the whole. It is hoped that arrangements will be made by the Deputy Commissioners concerned to reduce this deficiency as far as possible in the succeeding years. The sanctioned programmes provide for 91 per cent of the total number of units required to be provided for under the Famine Code. Taking the sanctioned and emergency programmes together, ample provision exists in all the districts.

5. *Defects in the programmes.*—

Public Works.

Bangalore Division.—Item No. 191 should be classed under II (*b*). The total under sanctioned programme for the district should be 1,15,92,900 units.

Shimoga Division.—Items Nos. 3 to 5 and 6 to 22 are wrongly shown under "Large Works, Part I." Item No. 2 of the Channagiri Taluk and of Tirthahalli Taluk is classed wrongly under Part II and Part I, respectively. The entire book should be neatly written up with the district abstract.

Kadur Division.—Serial Nos. 17 and 30 should be shown under Part I, Large Works.

Chitaldrug Division.—Serial No. 82, which is evidently a large work, is wrongly included under small works.

Village Works.

Hassan District.—The total of Part I "Government Works" is not written up. There is a large variation between the total number of units shown in abstract Form No. III and in Form IV. This discrepancy requires rectification.

The Deputy Commissioners of Hassan and Chitaldrug Districts should have submitted an abstract containing only the total number of persons available for famine labour instead of list of persons available. The Deputy Commissioner, Mysore District, has not furnished this abstract statement.

Order No. 2573-92—P. W. 12936-55, dated 4th December 1917.

Recorded.

2. Government regret to observe that none of the programmes, except those of the Kadur District, were received within the prescribed time, *viz.*, 1st March 1917. As observed by the Revenue Commissioner, it is very unsatisfactory that the Public Works Programme of the Tumkur District and the Village Works Programmes of the Tumkur, Hassan and Bangalore Districts should have been submitted so late as June and July 1917.

3. It is observed that the deficiency in the sanctioned Public Works of the Kolar and Hassan Districts and in the sanctioned Village Works of all the districts, which is brought to notice year after year, has been made good to some extent during the year under report. The Executive Engineers and the Deputy Commissioners concerned are requested to see that greater attention is paid to the matter during the current and succeeding years, so that the deficiency may be gradually reduced and finally made up in three or four years.

4. The defects and inaccuracies pointed out by the Revenue Commissioner in some of the programmes should be duly rectified before they are submitted again. The Public Works Programme of the Shimoga District should be re-written in a new book, as remarked by that officer.

5. The inspection reports on the reserves of Tools and Plant, prescribed in Section 32 of the Famine Code, have not been received complete from either of the Superintending Engineers. They are requested to see that these reports are submitted in a complete form and within the prescribed time in future.

The Superintending Engineer, Southern Circle, has not yet submitted proposals for redistributing the stock of famine tools to the several districts. As more than three years have elapsed since the proposals were first called for, he should submit them without further delay.

6. A copy of the abstract statement (Form III) of the Famine Relief Programmes for the year under review is appended for information.

Printing of Tank Maps and Registers.

No. 2722-39—P. W. 13640-57, DATED 19TH DECEMBER 1917.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

Note No D. 528, dated the 1st October 1917, by the Joint Secretary to Government, Public Works Department, submitting proposals for printing Tank Maps and Registers.

Order No. 2722-39—P. W. 13640-57, dated 19th December 1917.

The Tank Maps and Registers have been compiled at great expense. Their usefulness is explained in paragraphs 2 to 7 of the note read above, extract appended. As they form a permanent and valuable record, it is advantageous to print them. Government are therefore pleased to accept the proposal to print 100 copies each of the Index and Serial Maps, and 100 copies of Tank Registers in the first instance, and to sanction the estimate for Rs. 77,300 submitted for the purpose. The work should be completed within two years.

The question of printing the Taluk Maps may be considered later on.

2. The printing of the Index and Serial Maps may, as proposed, be entrusted to Mr. M. Shama Rao of the Art Litho Press, Bangalore City, under suitable guarantee. He should carry out the work under the general supervision of the Superintendent, Government Press, who should be requested to see that the work is carried out expeditiously and satisfactorily.

3. The Tank Registers should be printed at the Government Press. The Executive Engineer, Irrigation Division, should keep a watch on the progress of the work as a whole, and see that it is completed within the time prescribed.

S. CADAMBI,
Joint Secy. to Govt., P. W. Dept.

To—The Executive Engineer, Irrigation Division, with the sanctioned estimate.
The Superintendent, Government Press.
The Superintending Engineers of Circles.
The Deputy Commissioners of Districts.
The Revenue Commissioner in Mysore.
The Secretary to Government, Revenue Department.
The Superintendent, Revenue Survey and Settlement.
The Comptroller of Mysore.
The Director of Industries.

No. 2722-39—P. W. 13640-57, DATED 19TH DECEMBER 1917.

Note No. D. 528, dated the 1st October 1917, by the Joint Secretary to Government, Public Works Department.

2. The Tank Maps and Registers are records of permanent value.

3. The Maps contain, besides the topographical details, very useful information about tanks. The river basins, series and sub-series, are distinctly shown. The tanks are serially numbered. Tanks in operation, breached tanks, and tanks proposed to be restored are also shown separately.

4. The Taluka Maps show all these tanks "Talukwar." The corresponding registers contain the above information suitably arranged; and in addition, the survey, constructive and revenue details and information about supply, utilisation and surplus, etc., are included.

5. The usefulness of the complete set of compilation consisting of—

(1) Index Map,
(2) Serial Maps,
(3) Taluka Maps,
(4) Registers

is established; and they will serve as the basis for correcting and completing up-to-date information in the case of these Mysore tanks of unique value and history with their elaborate system of feeder channels and "Kodi-feeders."

(1) *Index Map.*—Is a ready map of reference for the various Irrigation groups and works in the State; indispensable to all officers and subordinates of the Public Works Department; serves the same purpose, and is of the same interest to other Departments connected with Irrigation, *viz.*, Revenue, Agriculture, Surveys and Land Record and Forests, as the Road Map is to all touring Government Officers. It is therefore proposed to print 100 copies of the Index Map.

(2) *Serial Maps.*—Show all tanks, their position, lie in the valley, etc., according to the series and sub-series; and

(3) *Taluka Maps.*—Show the same particulars according to the talukas.

6. The latter is contained in the former.

One point for consideration is whether it is necessary or, at any rate desirable from the point of economy to print both Serial and Taluka Maps.

7. In my opinion, the Serial Maps are very necessary in the hands of officers who have the design and development of Irrigation in the State, while the Taluka Maps are essential in the hands of officers and subordinates who have the execution and management of Irrigation works. One cannot be replaced by the other. I therefore propose that 100 copies each of both Serial and Taluka Maps may be printed. The Taluka Maps will, however, be printed later on for considerations explained in the sequel.

(4) *Tank Registers.*—Hundred copies should be printed.
